

Thank You to Our Most Cherished Clients

A FEW UPDATES FROM BODY & SOUL --

Please read (we know its lengthy, but please bear with us)

While the state of Massachusetts has moved to reopen, we here at Body & Sou are now open 7 days a week again. With the no mask/mask question hanging over everyone, we are asking that all clients please wear a mask to enter the building and in all common areas. We are working towards a fully vaccinated staff, however, we do have a few massage therapists with medical issues and are awaiting doctors approval to get vaccinated. We ask that if you require or plainly just feel more comfortable with a fully vaccinated massage therapist please state that prior to booking any appointments. - (All estheticians for facials are fully vaccinated)

We have made a few changes to our menu of services for the remainder of 2021. We will not be offering chair massages, half hour massages or facials and we are not accepting new purchases of 6pk packages.

Gift Certificates purchased in 2019 are still valid due to the lockdown for most of 2020 and the restrictions that than followed. Please come in and use them :)

And finally, 2020 was a very hard year for everyone, including our staff. Please be mindful of our hardworking employees and use kindness during what will be an exciting and busy summer as we ALL move towards normal life as we know it. We, here at Body & Soul have always prided ourselves on professional, courteous and warmth for all who walk through our door of oasis.

A wise person once said "You will catch more bees with honey"

Warmest Regards
